

USER'S GUIDE

Rechargeable Heated Clothing

Instructions for the 602 Lithium Battery w/ Digital Controller

Step 1. Fully Charge Battery

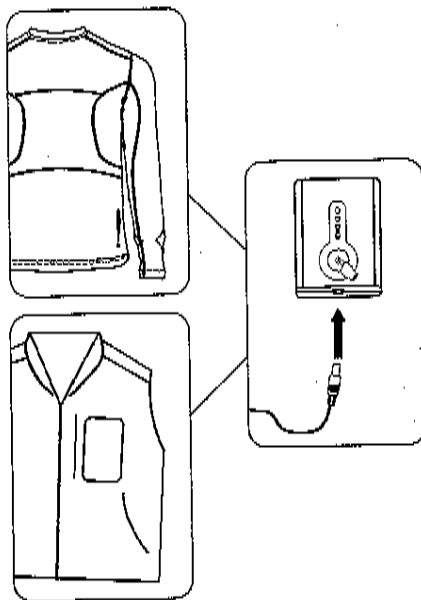

RED Light = Charging
GREEN Light = Fully Charged

Step 2. Install Power Pack

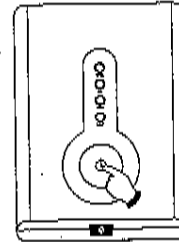

Locate the connector, plug power pack and place battery into the pocket.

- Locate the inner pocket on the side of your BASE LAYER to find the battery connector.
- Some models such as VESTS and JACKETS have the hidden pocket located on the inside of the garment, near the front of the waist.

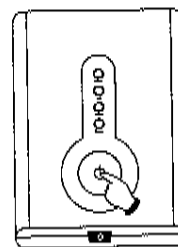

Step 3. Turn Power On

Press and hold "⏻" for 2 seconds until the LED light shows BLUE (Max).

To Change Temperature:

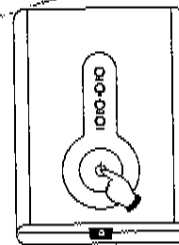

Press (do not hold) "⏻" to cycle select temperature settings to your demand.

- Max (Blue)
- Hi (Red)
- Medium (Orange)
- Low (Green)

To Turn Power Off:

Press and hold the "⏻" until all of the controller lights are off.

ATTENTION:

Battery must be fully charged before use, storage, and once every 6 months of storage thereafter.

WASH & CARE

- Remove battery first before washing.
- Do not use bleach or cleaning solvents
- Do not twist or wring
- Hand wash in cold water

STORAGE INSTRUCTIONS

- Store in a cool, dry place (Recommended Humidity 40%-60%)
- Temperature extremes will shorten battery life.
- Keep battery connectors/contacts clean.
