

Using the Base Layer

1. To turn ON, press and hold the power button until the LED indicator lights up red.
2. Press the power button to change temperature settings.
3. Press and hold the power button to turn OFF.
4. Remove the batteries.
5. Fully charge the batteries before storage.
6. Unplug the charger and remove the battery from the garment when not in use.

Caution

1. Consult your doctor before using the heated base layer if you experience loss of sensation.
2. Discontinue use when you see redness on the skin. Excessive exposure to heat can lead to burns.
3. Only use the supplied charger to charge the device.
4. Do not peel or damage the battery's protective film. Damaged batteries can lead to explosion and must be disposed of immediately.
5. Do not throw batteries into open fire.
6. Dispose of used batteries properly.
7. Do not modify the unit or use it for any unintended purpose. Repairs and modifications are only to be carried out by the manufacturer.

Instructions for Use

First use and charging the batteries:

1. Charge the batteries overnight prior to first use. The LED light on the charger turns GREEN when the batteries are fully charged and ready to use.
2. Plug the batteries to the connector in the battery pouch. Secure the batteries in separate compartments of the pouch.

Battery Storage and Care

To ensure a long product life, store the fully charged batteries in a dry environment at room temperature. Detach the batteries from the gloves and charger when not in use.

Cleaning the Base Layer

Machine wash and hand wash are not advisable. Spot cleaning is recommended. You may use a damp cloth or a gentle brush. Never use bleaching or cleaning solvent. Do not iron.
